**Hats and Caps.**  
THE subscriber would inform the public that he  
continues the Manufacture of Hats and Caps.  
at his old stand, No. 35 Main street, between  
Chestnut and Pine, where he is always supplied  
with a full stock of the various kinds of goods  
in use, in his line. All the latest improvements  
in the trade have been adopted by him, and neither  
pains nor expense will be spared to make his hats  
equal in durability and beauty, to any manufactured  
either east or west of the mountains.  
By an arrangement which he has made, at much  
expense, he will produce the New York Spring and  
Fall fashions simultaneously with their production  
in that city, thus enabling the fashionable custom-  
er to supply themselves a month earlier than hereto-  
fore.  
Doing exclusively a cash business, the good cus-  
tomer is not taxed with the delinquency of the bad;  
and selling for one price only, the customer is  
saved much time and trouble.  
Orders for single hats or caps, specifying the  
circumference of the head, promptly attended to.  
Each and every hat is guaranteed to be all that it is  
represented in selling, and the subscriber will be  
responsible for any deficiency either in the color or  
wear.

**Dr. Spencer's Vegetable Pills,**  
AND  
**Tonic and Restorative Bitters.**  
This Medicine has long been known and ap-  
preciated for its extraordinary and immediate pow-  
ers of restoring perfect health in persons suffering  
under every kind of disease to which the human  
frame is liable. Their manifest and sensi-  
ble action upon the chyle, which is the fountain  
head of health or disease, they may justly be con-  
sidered a universal Medicine, and the complaints  
for which they are so particularly designed are as  
follows: Bilious fever, fever and ague, dyspepsia,  
liver complaint, sick headache, enlargement of  
the spleen, jaundice, asthma, dropsy, rheumatism,  
piles, cholera, bowel and summer complaints, fe-  
male obstructions, heart-burn, nausea, furred  
tongue, distention of the stomach and bowels,  
incipient diarrhoea, flatulence, habitual constiveness,  
loss of appetite, bloated or swollen complexion;  
and in all cases of torpor of the bowels, where a  
cathartic or aperient medicine is needed. As  
many of the above enumerated diseases come on  
imperceptibly, and become far advanced in their  
progress before it is expected that they exist in  
the system, no one should suspect, in such cases,  
that he has been deceived, but should consider the  
use of the pills for a considerable length of time.  
Full directions accompany each box, for  
the use of the pills, in all those complaints for  
which they are recommended.  
Read what those persons who have used Dr.  
Spencer's Pills and Bitters, say of their merits  
and efficacy.  
Dr. N. H. Edwards of Baltimore, has used Dr.  
Spencer's Pills and Bitters in his practice for the  
last twelve months, in several cases of sick head-  
ache, dyspepsia, bilious fever, fever and ague, and  
says he always found them safe and efficient.  
Geo. A. Huddleton, Esq., merchant, Wilson  
County, Tenn., says he used the Pills and Bitters  
with entire success, and that in costiveness, sick  
headache and bowel complaint, they are the best  
medicine he is acquainted with.  
James Porter, Esq., of Gibson County, Tenn.,  
says he had been four years afflicted with a se-  
vere dyspepsia and liver affection, and got no re-  
lief from the medical faculty or from any prepara-  
tion of medicine, till he used that prepared by Dr.  
Spencer, which immediately restored him to per-  
fect health.  
We refer the afflicted to the pamphlets to be  
had gratis of all the agents who sell the medi-  
cines, for further testimonials of its efficacy.  
Price 25 cents per box, and one dollar per bot-  
tle.  
Principal office for the sale of the medicine, is  
at No. 107, New York.

**DR. HULL'S**  
**Vegetable Fever and Ague and**  
**Anti-Fever Pills.**  
OF all the remedies ever discovered for the  
fever, certain and effectual cure of the Ague  
and Fever, or Chills and Fever, none have more  
merited and received the approbation of the public  
than the pills of Dr. Hull. Upwards of eighty thousand  
boxes have been sold, in only six States, within  
the last twelve months, and over 20,000 boxes  
of these have been sold in the State of Alabama.  
The proprietor has never known a single  
instance where these pills have failed to cure the  
Chills and Fever, where they have been used  
strictly according to the directions accompanying  
them. One box of these pills is sufficient to cure  
two cases of common Chills and Fever.  
Messrs. Pettigrew and Gray, of Spring Creek,  
Tenn., writing under date of July 1st, 1845, say  
they are entirely out, have sold 75 boxes in a few  
weeks, and not a single failure. They say they  
never sold a medicine which gave such satisfaction,  
and cured so quick and effectually.  
Judge Forrest, of Jonesboro, Alabama, was  
cured by half a box, after the physicians had ex-  
hausted all their skill, and failed to cure him.  
R. F. Houston & Co., of Livingston, Ala-  
bama, sold 144 boxes in a few months. Every  
box which they warranted to cure, and in no  
one case were they returned.  
Dr. Mattison, of Benton county, Alabama,  
says he never knew an instance where Hull's  
Pills failed to effect a permanent cure in all cases  
of fever. Price one dollar per box.

**ALSO, HULL'S COUGH LOZENGES.**  
EVERY family in the United States should keep  
a supply of these Lozenges in the house, not  
only to counteract the consumptive tendencies of  
the climate, but to be used as a remedy in the  
case of Coughs, Croup, Whooping Cough, Diffi-  
culty of Breathing, Night Sweats, Pain in the Side or  
Breast, Emaciation and general debility. They  
will be found far more efficacious than the Bal-  
sams, and various other expectorants before the  
public.  
One single 25 cent box will reveal their  
astounding virtues, and open at once the fountain  
of health and strength to the afflicted.  
Price 25 cents, with full directions.

**ALSO, DR. HULL'S WORM LOZENGES.**  
Are the surest and safest medicine for destroying  
worms ever discovered. There is no danger in  
their operation, no mistake in their efficacy. Chil-  
dren will cry for them and eat them as they would  
candy. One box will cure many cases of worms  
as three vials of the common liquid vermifuge  
medicines usually given.  
Dr. English, in Broadway, New York, cured  
two children of his, by using these Lozenges,  
after trying several other medicines without bene-  
fit. He has used them in his practice nearly  
twelve months in over one hundred cases, and  
always with the best success. He says that he  
has cured four cases of worms with only one box.  
He also cured one boy with a single dose that had  
been suffering with fits for nearly two years.  
Edward McCortee, Esq., gave some of the  
first of his, four years old, and the first dose  
brought away between 30 and 40 worms.  
Mr. Wm. McDaniel had a child whom the phy-  
sicians pronounced incurable, and said it would  
die, but it was cured by half a box of these Lo-  
zenges. Price 25 cents per box, with directions.

From the Oregon Spectator.  
**WILLAMETTE RIVER.**  
It will probably be interesting to many,  
and particularly so to those who anticipate  
visiting Oregon at some future time, to know  
something of the Willamette, the Great Falls  
of which are now so rapidly coming into no-  
tice, and to learn something of the many  
cities that are springing up in the neighbor-  
hood of the most important water privilege  
west of the Rocky Mountains.

The Willamette river takes its rise in the  
California mountains, in about 43 degrees of  
north latitude; its course is nearly north,  
winding through beautiful fertile prairies,  
now and then skirted by lofty forests of fir,  
pine, and cedar, receiving many considera-  
ble tributaries both on the east and west—  
all of which have traversed their whole  
length through a rich and fertile country,  
and, in many places we might say, bounded  
with beautiful and luxuriant meadows, en-  
circled with the lofty fir, and interspersed  
with beautiful groves of oak.

But to describe the Willamette in its de-  
cent, time and space will not permit us to  
enter minutely either into a description of  
the river or the country adjoining. On ar-  
riving near the Falls, "the river spreads out  
into a wide, deep basin, and runs slowly  
and smoothly until within half a mile of the  
Falls, when its velocity increases, its width  
diminishes, eddies are formed, in which, the  
water turns back as if loth to make the  
plunge; but is forced forward by the water  
in the rear, and when still nearer, it breaks  
upon the volcanic rocks scattered across the  
channel, and then, as if resigned to its fate,  
smooths its agitated surges, and precipitates  
down an almost perpendicular of twenty-five  
feet presenting a somewhat whitened column."  
The rising mist, on a pleasant  
day, forms, in the rays of the sun, a beauti-  
ful bow—the whole forming a sight the grand-  
eur of which has to be seen to be appreciated.

Below the falls, for the distance of half a  
mile, the channel of the river is confined by  
ledges of basaltic rocks to about two hun-  
dred yards in width. About one mile be-  
low the falls enters the Clackamas river from  
the east, which takes its rise near Mount  
Hood, one of the perpetual snow peaks of  
the Cascade mountains. Here are the  
Clackamas rapids, another obstacle in the  
navigation of the Willamette; but the diffi-  
culties here presented are of minor impor-  
tance—at almost any stage of water, the  
boats of the Hudson Bay Company ascend  
and descend with little difficulty. From  
this place to the mouth of the Willamette,  
a distance of twenty-five miles, navigation  
is good, as the tide runs up to the foot of  
the Clackamas rapids. The Willamette,  
uniting its whole course from south to  
north, enters the Columbia in about latitude  
"46 degs. 30 min. north, longitude 122 degs.  
20 min. west."

On the east side of the Willamette, at the  
falls, the land is claimed by Dr. John Mc-  
Laughlin, who laid out Oregon City in the  
year 1842. The many advantages present-  
ed for the growth and prosperity of a man-  
ufacturing city, is manifest to the most
